

Aspen outbreak update 3 – Wednesday, September 1, 2021

This information is current as of September 1, 2021 at 12:44 p.m.

Hello Aspen residents and primary contacts,

Current status

The total number of active resident and employee cases of COVID-19 at Aspen is one – the same as our last update. We will inform you of changes.

Category of case	Residents	Employees
Current active	1	0
Cumulative recovered	0	0

Testing of residents

Homecare residents will be tested tomorrow (Thursday) morning. Those residents are asked to stay in their suites after breakfast; AHS will come to you. We'll share the date for non-homecare residents once we have it.

Friendly reminders

- Masking is required outside of your suite and recommended whenever anyone is inside your suite.
- Smaller Active Aging group programs are available. Participants need to wear masks and maintain physical distance.
- The tuck shop is open. The hair salon's new management team plans to open in the coming days; we'll share the re-opening date once confirmed.
- Outdoor and indoor visits can continue. Please contact Reception to schedule indoor visits.
- If you have an essential medical appointment scheduled, call the provider to say you are coming from a community in are confirmed outbreak.
- Self-monitor for symptoms, let an employee know if you experience any.

Our next update will be on Friday unless there are changes before then. Please contact me if you have questions in the meantime.

Thanks for your continued cooperation and patience,
Vinod Nirwal, Aspen Community Assistant Manager (vnirwal@silvera.ca)
