

## **Shawnessy outbreak update 4 – Thursday, Jan. 6, 2022**

*This information is current as of Jan. 6 at 9:00 a.m.*

Hello Shawnessy residents and primary contacts.

**Current status** - The number of active resident and employee cases of COVID-19 at Shawnessy is still two residents and two employees. We will advise you of any changes.

### ***Today's updates***

- Alberta Health Services will test residents who do not receive home care today beginning at 2 p.m. All other residents will be tested tomorrow beginning at 9 a.m. Residents are asked to remain in their suites during this time until their test has been completed.
- Residents who are not isolating or suspected to be ill are free to use common areas. Please continue to distance from others and to always wear a mask covering your chin, mouth and nose when outside of your suite, or anytime anyone is inside your suite, including Silvera employees or health care aides.
- Visitors are still permitted for non-isolating residents. Virtual visits are available for isolating residents – please contact Reception for help to set these up.
- Please self-monitor for any COVID-19, cold or gastrointestinal symptoms and report them to Reception: 403-256-4036.

If you have a medical appointment scheduled, please inform the healthcare provider that you are coming from a community that is in a Confirmed COVID-19 Outbreak.

We will update you again on Monday unless there are significant changes before then.

Thank you for your patience and support,

Hanan Ghoneim, Shawnessy Community Manager, [hghoneim@silvera.ca](mailto:hghoneim@silvera.ca)
