Hello Valleyview residents and primary contacts:

The current number of active resident cases of COVID-19 at Valleyview is three. All positive and symptomatic residents are isolating.

Today's update

- For now, we have decided to temporarily suspend indoor visits until our outbreak is stable. Outdoor visits may continue. Thank you for your patience during this time.
- All common-touch items in the dining areas have been removed, including salt and pepper shakers, butter, etc; the salad bar is also closed for now.
- Snacks and coffee stations are temporarily closed. Residents who would like refreshments may ask for them at the kitchen.
- Two spaces are currently being used for dining while the elevator is being repaired – one on the main floor and one on the lower level. Residents in suites on the lower level who cannot use the stairs should call Reception if they need refreshments delivered to them.
- We will continue to request that Alberta Health Services performs PCR tests on symptomatic residents or any residents who have tested positive with a rapid test.
